

Rimaster's Quality Policy Rimaster's Environmental Policy

Valid as from 2018-12-19

Rimaster's Quality Policy

A high quality in all our operations creates increased competitiveness and financial advantages for our customers

All products and services supplied by us shall exceed our customer's expectations and requirements

A focus on quality is a priority for all our employees

We work with continuous improvements to create simplicity in order to reach or exceed our quality targets

We shall always work with our management system in such a way that it brings continuous improvements of the system itself, as well as of the organization in general

Rimaster's Environmental Policy

Rimaster shall actively contribute to a development of a sustainable management of our global resources

Environmental consideration is a natural and integrated part of the business process, thus also constantly present in all our operations

We shall constantly strive to further enhance our ability to minimize any environmental strain stemming from our operations

From this follows:

- We shall always follow and adapt to any legal regulations that have an impact on our operations
- All employees have a responsibility to minimize the negative effect our operations might have on the environment
- Recycling is a natural part of our processes
- We shall strive to minimize our consumption of energy, raw material and packaging materials

Kvalitetspolicy

Hög kvalitet i all vår verksamhet skapar stärkt konkurrenskraft och ekonomiska fördelar hos våra kunder.

Alla produkter och tjänster som vi levererar ska överträffa våra kundens förväntningar och krav.

Kvalitetsarbete är en prioriterad uppgift för alla medarbetare i företaget.

Vi arbetar med ständiga förbättringar för att skapa enkelhet och på så sätt nå eller överträffa våra kvalitetsmål.

Vi ska alltid arbeta med vårt ledningssystem på ett sätt som ständigt förbättrar såväl systemet som organisationen.

Miljöpolicy

Rimaster ska aktivt bidra till en utveckling som främjar ett hållbart nyttjande av våra resurser.

Miljöhänsyn är en naturlig och integrerad del av affärsprocessen och därmed också ständigt närvarande i all vår verksamhet.

Vi ska ständigt arbeta för att bli bättre, förebygga föroreningar och minska miljöbelastningen från vår verksamhet.

Detta innebär att:

- Vi ska i alla lägen uppfylla de lagar, förordningar och övriga bestämmelser, som påverkar vår verksamhet.
- Alla medarbetare ska känna ansvar för miljön och förstå sin roll i arbetet att minska företagets miljöpåverkan.
- Återvinning är en naturlig del av våra processer.
- Vi ska sträva för att minska förbrukning av energi, insatsmedel och emballage.

Quality Policy

A high quality in all our operations creates increased competitiveness and financial advantages for our customers.

All products and services supplied by us shall exceed our customer's expectations and requirements.

A focus on quality is a priority for all our employees.

We work with continuous improvements to create simplicity in order to reach or exceed our quality targets.

We shall always work with our operations management system in such a way that it brings continuous improvements of the system itself, as well as of the organization in general.

Environmental Policy

Rimaster shall actively contribute to a development of a sustainable management of our global resources.

Environmental consideration is a natural and integrated part of the business process, thus also constantly present in all our operations.

We shall constantly strive to further enhance our ability to minimize any environmental strain stemming from our operations.

From this follows:

- We shall always follow and adapt to any legal regulations that have an impact on our operations.
- All employees have a responsibility to minimizing the negative effect our operations might have on the environment.
- Recycling is a natural part of our processes.
- We shall strive to minimize our consumption of energy, raw material and packaging materials.

Polityka jakości

Wysoka jakość naszych produktów wpływa na podniesienie konkurencyjności oraz korzyści finansowych dla naszych klientów.

Wszystkie produkty oraz usługi dostarczane przez nas powinny przekraczać oczekiwania i wymagania naszych klientów.

Najwyższa jakość to priorytet dla wszystkich naszych pracowników.

Nieustannie dążymy do doskonalenia i usprawnienia naszej pracy, aby jak najlepiej spełniać - a nawet przewyższać - założone przez nas wymagania dotyczące jakości.

Naszym celem jest jak najlepsze wykorzystywanie systemu zarządzania produkcją w celu jej ciągłego ulepszania.

Polityka środowiskowa

Firma Rimaster aktywnie przyczynia się do rozwoju i propaguje trwałe wykorzystanie naszych zasobów.

Wzgląd na środowisko jest naturalną i zintegrowaną częścią procesu biznesowego, dlatego też jest on stale obecny we wszystkich naszych działaniach.

Nieustannie pracujemy nad ulepszeniem naszej produkcji, staramy się zapobiegać ewentualnym zanieczyszczeniom i jak najbardziej ograniczać wpływ naszej działalności na środowisko.

Dlatego:

- Postępujemy zgodnie z przepisami, zaleceniami i innymi wskazówkami, które dotyczą naszej działalności.
- Wszyscy nasi pracownicy czują się odpowiedzialni za środowisko i rozumieją swoją rolę w pracy na rzecz ochrony środowiska.
- Recykling jest naturalną częścią naszych procesów.
- Staramy się wykorzystywać jak najmniej opakowań i ograniczać zużycie energii.

Quality Policy

A high quality in all our operations creates increased competitiveness and financial advantages for our customers.

All products and services supplied by us shall exceed our customer's expectations and requirements.

A focus on quality is a priority for all our employees.

We work with continuous improvements to create simplicity in order to reach or exceed our quality targets.

We shall always work with our operations management system in such a way that it brings continuous improvements of the system itself, as well as of the organization in general.

Environmental Policy

Rimaster shall actively contribute to a development of a sustainable management of our global resources.

Environmental consideration is a natural and integrated part of the business process, thus also constantly present in all our operations.

We shall constantly strive to further enhance our ability to minimize any environmental strain stemming from our operations.

From this follows:

- We shall always follow and adapt to any legal regulations that have an impact on our operations.
- All employees have a responsibility to minimizing the negative effect our operations might have on the environment.
- Recycling is a natural part of our processes.
- We shall strive to minimize our consumption of energy, raw material and packaging materials.

品质政策

我们所有业务的高品质为客户创造不断竞争的竞争能力和财务优势。

我们提供的所有产品和服务，应当始终超出客户的期望。

品质工作是公司所有员工的首要任务。

我们通过持续的改进/创造简约来满足和超越客户的质量要求。

我们将始终与我们的管理系统一起努力，以这样的方式不断改进管理系统和组织结构。

环境政策

瑞马斯特应当积极地致力于我们整个资源合理利用的管理和发展。

环境因素是业务流程中一个自然和不可分割的部分，因此也始终存在我们所有的业务当中。

我们的工作必须始终能更好地防止污染，减少我们操作所引起的环境负担。

这意味着：

- 在任何情形下，我们都必须遵守相关的法律法规。
- 所有员工要有责任在日常工作中最大限度的减少对环境的影响。
- 回收利用是我们业务流程中的一个自然组成部分。
- 我们必须努力减少能源，资源及包材的使用消耗。

Quality Policy

A high quality in all our operations creates increased competitiveness and financial advantages for our customers.

All products and services supplied by us shall exceed our customer's expectations and requirements.

Rimaster's Quality and Environmental Policy

Politika kvaiteta

Visok kvalitet svih naših operacija stvara povećanu konkurentnost i finansijsku prednost našim kupcima.

Svi proizvodi i usluge koje pružamo prevazilaziće zahteve i potrebe naših kupaca.

Fokus na kvalitet je prioritetan svim našim zaposlenima.

Radimo uz konstantna unapređenja kako bi kreirali što jednostavnije procese radi dostizanja i prevazilaženja naših ciljeva kvaliteta.

Uvek ćemo raditi u okviru našeg operativnog sistema upravljanja na način koji će doprinosti kontinualnom unapređenje samog sistema, kao i organizacije uopšte.

Politika životne sredine

Rimaster će aktivno doprinosti razvoju održivog upravljanja našim globalnim resursima.

Pažnja usmerena na životnu sredinu je prirodan i integralni deo procesa poslovanja, te je stalno prisutna u svim našim operacijama.

Konstantno ćemo težiti dodatnom smanjenju bilo kakvog uticaja na životnu sredinu koji proizilazi iz naših operacija.

Iz ovoga sledi:

- Uvek ćemo pratiti i prilagođavati se pravnim normama koje imaju uticaj na naše operacije.
- Svi zaposleni imaju obavezu da smanje na minimum negativne efekte naših operacija koje mogu imati uticaj na životnu sredinu.
- Reciklaža je integralni deo naših procesa.
- Težićemo minimalnoj potrošnji energije, sirovina i materijala za pakovanje.
